

Construction update: Brisbane Metro

October 2025

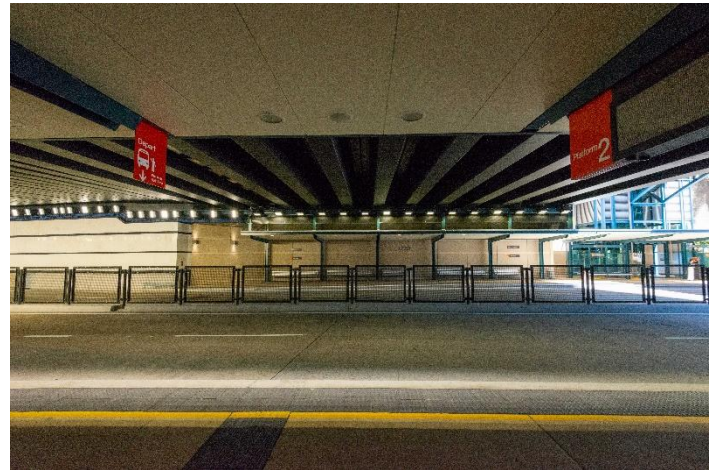

Major Brisbane Metro construction activity in South Brisbane, North Quay, the CBD and Buranda is now complete.

New and upgraded infrastructure includes the newly opened Adelaide Street tunnel, which provides a dedicated bus and metro connection between the Inner Northern Busway and South East Busway, addressing congestion bottlenecks in Brisbane's CBD.

The Brisbane Metro project team would like to thank the community for their patience and understanding throughout major construction. Minor maintenance works will continue in the CBD, South Brisbane and at Buranda busway station throughout October 2025. From 1 November 2025, please direct any project enquiries to Brisbane City Council on 1800 692 333 (Monday to Friday, business hours) or via email at metro@brisbane.qld.gov.au.
